MEMORANDUM

DATE: September 6, 2022

TO: Mayor Jeffrey Caggiano
Board of Public Works

FROM: Raymond A. Rogozinski, P.E., Director of Public Works

RE: **Traffic Calming (Shrub Road, East Road and Redstone Hill Road)**

Residents on Shrub Road, East Road and Redstone Hill Road have expressed concerns with excessive speeding. Sidewalks are currently being designed on Shrub Road. At a June public information meeting, conducted to present the sidewalk design to residents, a number of residents in attendance requested the addition of traffic calming measures to the sidewalk project to reduce vehicle travel speeds. Residents in the Redstone Hill Road area are currently concerned with traffic generation from a proposed development. Approval of the development is pending City land use board approval and may not be approved. However, residents' concerns of high speed and truck traffic on Redstone Hill Road pre-dates the current development proposal. In addition to the residents on Shrub Road and Redstone Hill Road, the residents on East Road have previously attended City Council meeting requesting City assistance in addressing vehicle speeding.

The City's response to residents' roadway speeding concerns has primarily consisted of enforcement by the Bristol Police Department. With that said, as indicated above, residents on Shrub Road are requesting traffic calming measures, and a resident in the Redstone Hill Road area is requested that DiPietro Lane, adjacent to Redstone Hill Road, be made into a dead-end to eliminate cut-through traffic.

The request for traffic calming by residents stems from safety concerns associated with high speed vehicles on local roads. Potential traffic calming measures consist of reducing lane width, narrowing roadways (moving curb in), planting trees and landscaping along the road edge, installing a landscaped median, constructing horizontal curves and chicane, reducing intersection radii, and installing stop signs, speed humps or rubble/grooved pavement.

Parking along roads such as roads in Federal Hill is also a form of traffic calming as is the proposed angle parking on North Main Street. Parking along Shrub Road, Redstone Hill Road and East Road is not a common practice and is therefore not sufficient to calm traffic. As a result, it is anticipated that traffic calming measures will require establishing a no parking zone along the referenced roads that may be an issue for individual property owners.

Effective traffic calming measures limit the usage of roads as "cut through". Shrub Road, East Road and Redstone Hill Road all serve as cut through routes, therefore an additional component of potential traffic calming project would be to improve the primary/ desired travel route making it more attractive for vehicles to increase traffic on desired travel routes. In the case of Shrub Road, East Road and Redstone Road, the primary route should be along Maple Ave, South Street and Pine Street. An example of a project that may improve the travel along a primary route to reduce cut through traffic on East Road is a project to improve the intersection radius at Wolcott Road and South St and implement measures to reduce traffic signal red time on South Street. These improvements along South St. will reduce travel time and potentially reduce traffic on East Street. With that said, one of the concerns of traffic calming is the transfer traffic from one road to another. In the case of Shrub Rd., Redstone Hill Rd. and East Rd this risk is low, since the desired roadways for travel are the alternate route of Maple Ave., Pine St. and South St.

DPW's primary concerns with installing extensive traffic calming measures is the acceptance of the measures by the community, the long-term effectiveness of traffic calming, and its cost. The principle of traffic calming is to reduce traffic speed by increasing the driver attention and reducing driver comfort levels through measures such as reducing road width. The City's emergency services (Police & Fire) have recommended against the installation of speed humps, and the installation of traffic signs are governed by MUTC. The installation of mid-block stop signs often requested by residents is not recommended due to safety concerns associated with drivers encountering un-anticipated stop signs that can result in high speed collisions.

Since effective traffic calming measures reduce speeds by impeding traffic flow, one of DPW's primary concerns is public acceptance. **It is imperative that a consensus is formed in the City that supports traffic calming measures prior to implementation,** otherwise the City will incur design and expensive construction cost that may, if not publicly accepted, result in traffic calming measures being ultimately removed (requiring reconstruction). As of this writing, DPW has received a number of complaints associated with the proposed installation of a bike path on Mem Blvd (bike path is a form of traffic calming). Although residents are currently expressing concerns with reducing Mem Blvd travel lanes, the reduction of North Main Street to a single lane in 2001 now seems well accepted by City residents.

There is no doubt that installing traffic calming measures on City roads may be desired by residents living along the roadway, however there is also no doubt that portions of the general public will express concerns, if installed. In addition, since the basis of traffic calming is the reduction of speeds by requiring an increase in driver attention, the long-term benefit of traffic calming may be limited, as drivers become more familiar with the roadway calming measures. As driver comfort increases, speeds typically increase. This is also why, police departments often report that speed enforcement actions often result in the ticketing of residents living on, or adjacent to, the roadway subject to the enforce action. It should also be noted that although studies indicate that traffic calming reduces speeds, traffic calming measures are not quantifiable. In other words, an engineer cannot state that decreasing travel lanes or planting trees reduces roadway speed by a specific amount. With that said, as Director of Public Works I do support investigating traffic calming measures and would recommend procuring the services of an engineering firm to develop traffic calming concepts plans for Shrub Road and Redstone Hill Road. In order to proceed DPW requests the following BPW action:

Authorize DPW to proceed with procuring the services of an Engineering firm to develop traffic calming concept plans for Redstone Hill Road. Estimated cost to prepare a traffic calming concept plan is \$20,000.

Authorize DPW to execute a contract amendment with AI Engineer's Shrub Road sidewalk contract to include the development of a traffic calming concept plan. Estimated cost to prepare and present a traffic calming concept plan is \$17,000.

Department of Public Works | 860.584.6125

The cost of preparing traffic calming concept plans for Shrub Road and Redstone Hill Road can be funded through the Department's Road Infrastructure Fund and an additional appropriation is not required. DPW will recommend preparations of plans for East Street once plans for Shrub Road and Redstone Hill Road are completed and traffic calming concepts are accepted by the City.

Implementing traffic calming on long straight roads such as Shrub Road and Redstone Hill Road is a challenge. Due to the straight geometry of the roadways, limited opportunities may be available to calm traffic without acquiring additional road right of way and impacting private property. In addition, the roads are currently classified by the State DOT as collector streets and in accordance with City ordinance the required road width is 32 ft. Therefore, construction of traffic calming measures will require a waiver by the BPW of City roadway ordinances street standards.

There is a potential source to fund the design and construction of some safety-related improvement actions. The US DOT Safe Street for All discretionary grant program was established under the Infrastructure Investment and Jobs Act (IIJA) to reduce the frequency of fatal and serious injury crashes. The grant is a potential funding source to design and construct traffic calming or road diet measures on Shrub Road, Redstone Hill Road and East Street. Because US DOT is promoting a regional approach to the program, an application is being prepared by the Naugatuck Valley Council of Government that would create a multi-jurisdictional, regional program to implement various low-cost safety improvements. The list of projects in the application includes road diets and traffic calming along these streets. The grant is competitive nationwide, therefore the NVCOG application may not be awarded. The primary selection criteria for Safe Streets for All Grant are the number and severity of crashes. Shrub Road has a relatively low number of reported accidents and of the roads in question East Street has the highest number of reported accidents.

Please note that this memorandum is being forwarded to the Police Department's Traffic Division for comments (if provided) by the referenced departments will be reported to the BPW at its September meeting.

Please feel free to contact me at 860-584-6113 regarding any questions or concerns.

****System Glitch - Fiscal Year 2023 Unpaid Fines for July, August and September have been adjusted****

According to Black's Law Dictionary, Uncollectible means:

"A thing unable to be collected after all efforts have been made".

Other definitions include:

"not capable of being collected; "a bad (or uncollectible) debt". bad. invalid - having no cogency or legal force; "invalid reasoning".

RE: October Monthly Traffic Division Statistic Report

Special Events:

During the month of October, the traffic division was involved in a funeral detail for a retired Bristol police officer who passed away. The traffic division was also involved in the escorts of two of our fallen officers who were shot and killed while responding to a disturbance call on Redstone Hill Road. They were escorted from the scene to the Office of the Chief Medical Examiner's Office, to the funeral homes and then the funeral location, Rentschler Field in East Hartford. After the services, Sergeant DeMonte and Officer Hamzy were escorted back to their respective funeral homes.

The traffic division also participated in the funeral detail for a Newington police officer who died suddenly at his home. They were escorted by police motor officers, Sergeant Jones and Officer Kosiba.

Serious Traffic Accidents:

Open Cases:

1. Case #22-2177 (1/19/22) – This was a fatal motor vehicle accident on Jerome Avenue where a vehicle struck a pedestrian walking in the roadway. The investigating officer has completed the investigation and completed an arrest warrant, which is currently being reviewed by the court.
2. Case #22-19414 (6/11/22) – A single motorcycle left the roadway while traveling eastbound on James P Casey Road at Hill Street. Upon leaving the roadway, the motorcycle struck a guardrail and continued into a utility pole. The operator was transported by LifeStar to an area hospital where he is recovering from serious, life changing injuries. The investigation is on-going.
3. Case #22-21652 (7/1/22) – A two vehicle crash on Farmington Avenue at Camp Street. A vehicle exited a business parking lot and was struck by a vehicle on Farmington Avenue. The driver of the vehicle exiting the business parking lot was killed in this crash. The investigation is on-going and several interviews have been conducted. Several search warrants have been drafted and served to aide in this investigation.
4. Case #22-23384 (7/14/22) – A motor vehicle versus pedestrian crash on Middle Street. A pedestrian was struck while in the travel portion of the roadway. The driver stopped and waited for police. The pedestrian was killed in this crash. This investigation is on-going and search warrants have been drafted and served to aide in this investigation.

5. Case #22-28631 (8/20/22) – A motorcycle was traveling eastbound on Redstone Hill Road and had just crossed over Emmett Street, where the rider failed to negotiate a curve in the roadway and crashed. The rider died as a result of this crash. This investigation is on-going and a mechanical inspection will be completed to determine if mechanical failure was a factor.
6. Case #22-37216 (10/29/22) – A westbound vehicle on Pine Street struck a pedestrian that began to cross Pine Street in a southerly direction. The pedestrian was pronounced dead at Bristol Hospital. This crash is under investigation and a search warrant is being sought for the vehicle to complete a vehicle inspection.

START calls:

The Serious Traffic Accident Reconstruction Team responded to two calls for service; one involving a police sergeant's vehicle, which crashed after going through an intersection trying to stop a fleeing vehicle after a domestic violence call. The START team also responded for a vehicle that crashed head on with another vehicle. This vehicle was also fleeing from police after a robbery call at an ATM.

Additional Assignments:

In addition, the Traffic Division officers are tasked with the daily maintenance of the fleet, child car seat installations as well as assisting other divisions within the police department and throughout the city.

Miscellaneous Information:

Two new officers were selected for the traffic division from the patrol division to replace those who promoted out of the division. They are expected to be transferred into the division in the coming weeks. The traffic division also took delivery of new patrol vehicles and one unmarked vehicle for traffic.

Detail what happened:	My husband was involved in a hit and run accident. The person that hit him was driving an unregistered and uninsured 2007-2013 GMC Sierra. He was driving a 1955 Chevrolet 210 Delray. One that I drive a lot in the summer. We spoke to several friends of ours that told us not to bother talking to the police. They won't do anything. I was disturbed and hurt by the comment since I have police and military in my family and I have a great deal of respect for what you do in the course of the day. Officer Hogan was extremely patient with me and answered all my questions. I sent him an email message this morning. He got back to me almost right away telling me that

he arrested the person that hit my husbands car and ran. It won't fix the car, that's Hagerty's job, but he made us feel a lot more comfortable knowing that the police are always out there watching. Please thank Officer Hogan for me. He was so much more than patient and I can't thank him enough....

Detail what happened:	I had called on 9/8, as there was this noise. I just couldn't sleep. To make a long story short, Officer Campisano called and said he was in my complex. I came out, and we discussed the noise. He heard it, and he couldn't figure it out either and said he would drive around. He called back to say it was on Middle Street; they were painting the road. Where they were painting was right where our complex was in the back. It made sense. Just wanted to say "thank you" to Officer Campisano. It means a lot
