RE: March Monthly Traffic Division Statistic Report

Traffic Officer Assignments:

The Traffic Division officers are tasked with the daily maintenance of the fleet, child car seat installations as well as assisting other divisions within the police department and throughout the city.

Traffic Complaints:

Officers have been conducting enforcement at various locations within the city for speeding and areas with higher crashes are being targeted through enforcement of speed and other violations to decrease crashes with the intention of making our roadways safer. By utilizing the UCONN crash repository crash heat map, known speeding and red light violation hot spots, the officers are tailoring their enforcement activities.

At the January Police Commissioner Meeting, there was a discussion on driver's failure to stop at the stop sign for Brier Road at its intersection with Ridge Road. Officers continue to monitor this area and conducted several enforcement patrols and conducted vehicle stops for stop sign violations.

Traffic Division Community Engagement:

Officers assisted with road closures and traffic direction for the Shamrock road race which took place on 3/16/24 in the Chippens Hill area. This race consists of a two mile run and walk and also a five mile race.

Traffic Division Training Assignments:

Officers from the Traffic Division went to the police academy for the day to assist in training. This training consisted of proper technique in motor vehicle stops, motor vehicle crash investigation and DUI investigations.

Traffic Division Traffic Stops:

Directed Patrols/Enforcement Patrols: 19
Motor Vehicle Stops: 105
Motor Vehicle Infractions/Arrests: 41
Warrant service: 0
Total calls for service logged: 136

Serious/Fatal Traffic Crashes:

Open Cases:

1. Case #23-42475 (11/23/23) – On Thanksgiving, a westbound vehicle had just left their gathering in Farmington. As they were nearing the Bristol town line, for an unknown reason at this time, the driver failed to negotiate a curve as the roadway entered Bristol. The vehicle struck several trees/brush and a rock before coming to a final rest against a tree. First responders arrived on scene, where the parents of three young children were pronounced dead at the scene. The children were extricated from the vehicle and sent to area hospitals for their injuries. This case is currently under investigation.
2. Case #23-46869 (12/22/23) – A southbound vehicle was traveling on Wolcott Road, near the southern portion of Old Wolcott Road when the vehicle crossed over the double center line and struck a guardrail. The vehicle was then struck by a northbound vehicle. The driver of the vehicle that crashed into the guardrail was killed while the other driver suffered minor injuries. This case is currently under investigation.
3. Case #24-610 (1/5/24) – A vehicle was exiting a restaurant's parking lot, which was then struck by a southbound vehicle on Middle Street, who had the right of way. This investigation was initially investigated by the patrol division. On 1/19/24, the original investigator was notified that the passenger of the vehicle exiting the parking lot was not expected to survive and succumbed to his injuries on 1/19/24. Search warrants have been drafted, signed and served to investigate the vehicles involved in this crash. The crash is currently under investigation.
4. Case #24-4395 (2/1/24) – A woman was jogging along Middle Street, who proceeded to cross the street towards Lake Avenue during the night time hours. As she was crossing, she was struck by a female driver who was southbound on Middle Street. The driver remained on the scene and is cooperating with the investigation. This crash is currently under investigation.
5. Case #24-7525 (2/24/24) – A motorcycle struck a vehicle that was exiting a gas station parking lot. The motorcycle rider was seriously injured and flew by Life Star to an area hospital. As of this writing, he remains hospitalized for his injuries. This crash is currently under investigation.

New Cases:

1. Case #24-8574 (3/3/24) – A northbound vehicle was northbound on West Street in the area of Gridley Street. As the vehicle approached a crosswalk by Gridley Street, a male in a motorized scooter was struck by the northbound vehicle. The patrol division responded to the scene and secured it. The male from the scooter was transported to an area hospital to be evaluated. After some time, hospital staff stated that his injuries were not life threatening. On 3/16/24, we were notified that the male had passed away. An autopsy was completed and the initial results were inconclusive. This crash was reassigned to the traffic division, who is actively continuing the investigation.

Traffic Division Administration:

Members of the Traffic Division administration met with members for the Pequabuck River Duck Race and Misfit Mamas Easter Eggs-Travaganza to discuss and assist in their special event that will be occurring in Bristol in the coming weeks. Both groups have new leadership or are new to town and needed help with planning their event and road closures. Recommendations were provided to aid in the success of their event.

The Traffic Lieutenant, as well as the our traffic technician met with members of public works and UCONN T2 center to set up equipment on Jerome Avenue near Stevens Street and Shrub Road to gather traffic count data prior to a bridge replacement project. This data will be gathered for a one week period and then moved to gather additional data on other roadways. This information will be used to study the effect of the bridge project and how traffic patterns change.

Police Commissioner Requests:

During several Police Commission meetings, residents of Ridge Road and Brier Road attended meetings to discuss their desire for changes to traffic in this neighborhood. The traffic division worked with the Department of Public Works over several months, gathering traffic count data, as well as speed data. This data gathered was shared and both departments worked together to come up with solutions.

During the Board of Public Works meeting, residents of Ridge, Brier and East Roads were invited to the meeting where they were presented the data and suggestions by DPW staff. Changes were discussed and voted on for South Street traffic patterns. Public works proposed making changes to the roadway markings on South Street. These changes were asked to be forwarded to the Police Commission for review and their acceptance or denial. I attached their roadway markings changes. These changes consist of removing the left turn lane on South Street for Ridge Road, which is consisted of a local road. This former turn lane would be repainted as a painted island. The left turn lane on South Street will be added at the East Road intersection to direct motorists to use East Road, which is a collector roadway.

*See appendix A for diagrams of the changes.

LAW ENFORCEMENT USE ATTESTATION

Dear Customers:

We understand that the reliability of voice, video and messaging communications is paramount to conducting safe operations and prosecuting criminal cases and thank you for trusting Callyo for that mission.

Over the past two years, Callyo, a Motorola Solutions company, has invested significant time and financial resources in adapting to rapidly changing telecommunications regulations. Some of our accomplishments include achieving 100% compliance ("A" Attestation) for STIR/SHAKEN to ensure Callyo is never treated as a robocall, as well as complying with A2P (Application to Person) messaging requirements for successful delivery of text messages.

While these measures have kept the lines of communication open, Callyo remains subject to carrier-level content filtering mechanisms designed to eliminate fraud, abuse, and unwanted content. Some of that content (such as narcotics and prostitution terminology) may be legal, but is still subject to filtering and potential non-delivery. It is important to note that this isn't a Callyo issue alone. All software applications that send traffic over cellular networks are now becoming subject to last-mile content filters.

Fortunately, due to the diligence of Motorola Solutions' legal, regulatory and product teams, we have arrived at a milestone agreement with the major carriers to bypass content filtering by classifying Callyo's communications as law enforcement traffic, while still preserving the absolute anonymity of your covert communications. For total clarity, with this change, protections remain in place to prevent a suspect or defense counsel from identifying a Callyo number as associated with law enforcement. This is a major accomplishment and step forward for public safety.

What we need from you: In order to activate this new classification of Callyo's traffic to alleviate filtering concerns, all Callyo customers must complete the following "Law Enforcement Use Attestation." We cannot achieve reclassification until every last customer form is complete.

If you have authority to bind your agency to legal agreements, please complete this form now. If you do not, please forward this email to a representative at your agency who does. If you have any questions, we ask that you submit them in writing to callyo.support@motorolasolutions.com so that we may direct them to the appropriate team.

LAW ENFORCEMENT USE ATTESTATION

I, _____ attest that _____ (the "Agency") is a government law enforcement agency, and a customer of Callyo, a Motorola Solutions company, and that the Agency has used and will use the Callyo software solely for public safety purposes in compliance with all applicable laws.

I further confirm I have the authority to bind the Agency.

I hereby consent to the disclosure of this attestation to AT&T Mobility LLC, Verizon Communications, Inc, Twilio Inc, United States Cellular Corporation, T-Mobile US Inc, and other US carriers (the "Carriers") facilitating the Agency's messaging and voice traffic.

I further consent to disclosing, upon written request from a Carrier or in response to investigations of abuse or spam, specific phone numbers in the Agency's Callyo account, under terms of confidentiality, in order to reduce the impact of consumer content filtering applied to messaging and voice traffic originating from or received by Callyo numbers provided to the Agency.
