Bristol, CT 06010

Date submitted: June 3, 2025

Date issued: May 16, 2025

Date Due: June 3, 2025

BID PROPOSAL – CONTRACT 2A25-087

BID PROPOSAL to the
Bristol Water Department
BRISTOL, CONNECTICUT 06010

Contract 2A25-087
**Miscellaneous Emergency Construction Services for Water and
Wastewater Operations at Various Locations Throughout Bristol**

Purchasing Department for the City of Bristol
111 North Main Street
Bristol, CT 06010

TO THE CITY OF BRISTOL:

The undersigned hereby declares that no Person or persons other than members of his own organization are interested in this Proposal or in the contract proposed to be taken; that it is made without any connection with any other person or persons making a proposal for the same work and is in all respects fair and without collusion or fraud; that no person acting for or employed by the City of Bristol is directly or indirectly interested therein, or in the supplies or works to which it relates or will receive any part of the profit or any commission therefrom in any manner which is unethical or contrary to the best interests of the City of Bristol. It is understood that the City, its agents and employees, are not to be, in any manner, held responsible for the accuracy of, or bound by any estimates relative to the work; all such estimates are to be considered solely for the purpose of filling out and comparing the several proposals.

The undersigned further declares that he has examined the site of the work, the general information, the plans and specifications and the form of contract, and will contract to provide all necessary tools, apparatus, freight, cartage and expense, and to do all the work and furnish all materials necessary to construct the proposed work in the manner and upon the conditions specified and the terms which follow herein.

The undersigned also agrees to furnish satisfactory performance and payment bonds with surety and to execute and deliver within 15 days after the notice of award, a formal contract with the City of Bristol for the fulfillment of this Proposal; and it is agreed, in case of failure or neglect on the part of the undersigned to do so, the City may determine the contract abandoned and declare the Proposal and acceptance null and void. The City may, at its option, declare the bid bond forfeited. No bid may be withdrawn for a period of 90 days after the opening of the bids.

The undersigned agrees to construct complete in place, including all labor, materials and equipment, "Contract 2A25-087 Miscellaneous Emergency Construction Services for Water and Wastewater Operations at Various Locations Throughout Bristol" according to the attached specifications and plans for the unit prices and/or lump sum prices hereinafter listed, times the actual quantities of the completed work as computed by the Engineer.

BID PROPOSAL – CONTRACT 2A25-087

The undersigned declares that the bidder is:

(a) A CORPORATION organized under the laws of the State of
CT having its principal office at

20	Diesel Mechanic services, for repair of City owned diesel-powered construction equipment	Hour	20	<u>115.00</u>	<u>2,300.00</u>
				Total above:	<u>\$ 70,950.00</u>
21	Bid Option Item: Soft excavation with vacuum truck equipment in areas with limited space for backhoe or other related equipment	Hour		<u>380.00</u>	

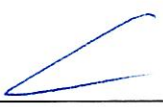

Contractor shall be required, if so requested by the Bristol Water Department, to provide equipment outlined above with staff properly licensed as a P-7, in the event that work related to Bristol Water Department guidelines warrant such conditions. It is anticipated that most activities will be exclusively operation of equipment not warranting such licensing. Provision of licensing information shall be detailed within this bid submission.

For item 20: Consistent with CGS 14-51, motor vehicle repairers shall be licensed by the Department of Motor Vehicles; a copy of said current license shall be included with the submission of a bid proposal. Any vendor selected to provide services under this contract shall have an active repairer's license, issued by the State of Connecticut, and appear on the current DMV-published list of licensed repair shops.

The undersigned is familiar with the conditions surrounding this call for bid and is aware that the City reserves the right to reject any and all bids or to accept any bids whether lowest or not if deemed for the best interest of the City, and is submitting this bid without collusion with any other person, individual or corporate.

Actual quantities of work utilized for any particular item may vary greatly from any representation of quantities, and the Contractor shall have no claim for damages based upon such variance. The Bidder further understands that the City and/or Bristol Water Department reserves the right to order work, in any quantity and under any and/or all of the proposal items, at the unit price bid when it is to the City's advantage.

The undersigned is familiar with the conditions surrounding this call for bid and is aware that the City reserves the right to reject any and all bids or to accept any bids whether lowest or not if deemed for the best interest of the City, and is submitting this bid without collusion with any other person, individual or corporate.

Re:

Letter of Recommendation for D'Amato Construction Company, Inc.
Bristol, CT

To Whom It May Concern:

As the Operations Engineer for United Water Connecticut and United Water Rhode Island, it is a pleasure for me to provide this letter of recommendation to D'Amato Construction Company. I am familiar with the high quality of their work on water supply infrastructure, storage tanks, well house and pump station buildings, and general site work projects. As the Operations Engineer, I have had the opportunity to work with many contractors in both states and D'Amato is definitely among the finest. I am confident that D'Amato possesses the experience, professionalism, ability and resources required to serve as the construction contractor for your next project.

I am very pleased with D'Amato and strongly recommend them as a qualified contractor.

Feel free to contact me at 203-731-0175 with any questions regarding D'Amato.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Neal J. DeDominicis', written over a horizontal line.

March 12, 2012

To whom it may concern:

The D'Amato Construction Company completed construction of the Southington Water Department's (SWD) new administration and crew garage facility in January of 2005. I have found the D'Amato Construction Company to be both conscientious and effective in their construction practices. They listened to our concerns and worked closely with the SWD to resolve issues and incorporate changes to the final design in a cost-effective manner.

During construction the metal building supplier went bankrupt and D'Amato had to negotiate with the receivers and attorneys to prepay and get the final materials to complete the project, which could have impacted the schedule in a negative way; however, D'Amato was able to keep the job moving along in spite of the obstacles. The concrete work was also done during an extremely cold winter but D'Amato was able to keep going despite the weather.

D'Amato's superintendent and project manager remained the same throughout the whole project which makes for a smooth running operation. They performed all the concrete, site work and carpentry in house which also moved the project along quickly.

We are very satisfied with the D'Amato Construction Company and we would strongly recommend them for a variety of construction services.

Sincerely,

Fredrick W. Rogers
Acting Superintendent

Re: Letter of Reference

Gentlemen,

The Connecticut Water Co. has utilized D'Amato Construction over the last five years on numerous projects involving large scale site work, complex concrete construction, design build for water treatment facilities and for general maintenance. They have always provided experienced trades people and performed the work in a professional and courteous manner. We consider D'Amato Construction to be one of our preferred contractors and look to their experience for quality work.

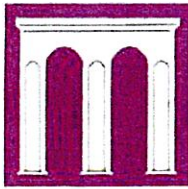

Sincerely,

A handwritten signature in blue ink, appearing to read "E. John King". The signature is stylized with a large, sweeping "E" and a long, horizontal stroke.

MACCHI ENGINEERS, LLC

Diversified Structural and Civil Engineering Services

April 6, 2004

To Whom It May Concern:

I am a senior project engineer with Macchi Engineers, LLC, a consulting engineering firm based in Hartford. I am a licensed professional engineer with twenty years of experience in the engineering and construction field. One of my duties is to oversee the construction of our firm's design projects. It is in this capacity that I have encountered the work of D'Amato Construction Company. Their work is of the highest quality.

I first encountered D'Amato Construction in 1999, when they completed repairs to Lake Garda Dam in Farmington. The project consisted of various repairs to a privately owned dam with a total construction cost of \$300,000. Although this project was small in size, I found D'Amato Construction's commitment to the job and respect to the needs of the owner to be outstanding. More recently I have had the pleasure of working with them on repairs to the Higganum Reservoir Dam in Haddam. The reconstruction of this State of Connecticut owned dam was one of the largest repair projects ever for the Connecticut DEP, with a final construction cost totaling \$5,000,000. The project had a number of difficult obstacles to overcome including water control of the reservoir, shoring for deep foundation excavations, and the preservation of a historic stone masonry spillway. Their expertise at all aspects of construction and their quick problem solving ability to unforeseen field conditions enabled the project to be completed successfully in a timely manner and under budget.

I have found the work of D'Amato Construction Company to be highly professional. They strive for a good working relationship and exchange of ideas with both the owner and the engineer with the final result being an excellent finished product. I would wholeheartedly recommend this firm to undertake any construction project. If you have any questions or would like to discuss this further, please feel free to call me.

Very truly yours,

MACCHI ENGINEERS

JOHN BROCHU, P.E.

STATE OF CONNECTICUT
DEPARTMENT OF ENVIRONMENTAL PROTECTION

April 7, 2004

To Whom It May Concern:

I am a civil engineer with the State of Connecticut Department of Environmental Protection. I have been a project manager with the state for over 18 years. The projects I am involved with are primarily flood control and dam repairs for state owned facilities.

I have worked with D'Amato construction on various dam repair projects for the last 15 years. The latest is a $5\pm$ million dollar project for repairs to Higganum Pond Dam. I have always found them to be an excellent contractor. They have worked on all aspects of heavy construction including concrete work, foundation work, stone masonry, water control, placement of fill etc. They have always been responsible and very cooperative in the day to day operations and in finishing all the projects.

I have no problem recommending this firm for any construction project. If you have any questions feel free to call me at (860) 424-3883.

Letter of Recommendation D'Amato Construction Company

***Edward R. Abel
Superintendent
City of Derby
Water Pollution Control Authority
1 Caroline Street
Derby CT, 06418***

April 8, 2025

To whom it may concern,

I am writing this letter to provide my unreserved recommendation for D'Amato Construction. As the Superintendent of the City of Derby Water Pollution Control Authority, I had the pleasure of working with Mike Wilson and crew for the installation and start up of our new rotary press. A 1.3 million dollar project. Throughout this time D'Amato Construction and crew has consistently exhibited an exceptional level of skill, professionalism, and dedication.

Over the course of our working relationship, I have had the opportunity to observe D'Amato's ability to manage various construction projects, from inception to completion. In addition to possessing a strong understanding of industry standards and the best practices, D'Amato Construction has displayed an excellent aptitude for problem solving and adaptability in the face of challenges.

Respectfully,

***Edward R. Abel
Superintendent
City of Derby
Water Pollution Control Authority***

Re: Letter of Reference
D'Amato Construction Company, Inc.

To Whom It May Concern:

This letter serves as a reference for D'Amato Construction Company, Inc. They successfully completed the construction of two new well houses at our main treatment facility. This included new structures, mechanical piping, HVAC, instrumentation, site work and installation of 8-inch and 16-inch water main on site. The wellfield project was completed on time and on budget. Based on their performance, we would use would have no reservations about using them on future projects and highly recommend D'Amato Construction Company, Inc. for your on call contract.

Please feel free to contact me if you need any additional information.

Sincerely,

Brian P. Robillard, P.E.

Effective Date	Aggregate Work Capacity (AWC)	Single Limit (SL)	Classifications
10/1/2024	\$300,000,000.00	\$150,000,000.00	CARPENTRY/MILLWORK, CONCRETE, CONSTRUCTION MANAGER AT RISK (GROUP B), DEMOLITION, DOORS AND WINDOWS, DRYWALL AND ACOUSTICAL, GENERAL BUILDING CONSTRUCTION (GROUP C), GENERAL TRADES, PLUMBING, ROOFING, SEWER AND WATER LINES, SITEWORK, WATER TREATMENT PLANTS

This certificate prequalifies the named company to bid. It is not a statement of the Contractor's capacity to perform a specific project. That responsibility lies with the awarding authority.
Company Licenses/Registrations: It is the Contractor's responsibility to update their license information by editing their electronic application. Licenses are confirmed by the Department of Administrative Services (DAS) at the time of initial application and at each renewal.
For information regarding the DAS Contractor Prequalification Program visit <http://portal.ct.gov/dasprequal> or call (860) 713-5280.

Classification Name

CARPENTRY/MILLWORK

Description

This classification includes: Carpentry: the cutting, framing and joining pieces of timber in the construction of wood structures. Millwork: the manufacture and installation of generally all building materials made of finished wood and/or plastic and manufactured in millwork plants and in planing mills, such as doors, window and door frames, sash, blinds, porch work, mantels, panel work, stairways and special woodwork. Does not include flooring, ceilings or siding.

CONCRETE

Installation, renovation, repair and maintenance of cast in place concrete structures including foundations and structural concrete components including such incidental or related work as is customarily performed by those in the concrete trade.

CONSTRUCTION MANAGER
AT RISK (GROUP B)

The undertaking of general contracts for the construction of buildings; for example, new construction, renovation, rehabilitation, alteration, addition, etc. The contract must include a variety of construction practices and supervision of a minimum of three sub-trades. Includes most of the structures that normally house State functions. These all require normal mechanical/electrical systems for today's standards of operation for quality space, security and environmental comfort. Examples include office buildings, general classroom and administrative offices, college buildings, auditoriums, maintenance buildings. The construction manager at risk serves as a general contractor and provides consultation regarding construction during the design of the building and through the construction. Note: If you are prequalified for Construction Manager at Risk under Group B, you are automatically prequalified for Group A. Note: For the purposes of DAS Construction Contractor Prequalification, contractors in this classification are no longer required to be registered as a major contractor with the Department of Consumer Protection. However, there may be specific projects within this classification that require a major contractor registration from the Department of Consumer Protection. Projects that are threshold buildings may require a Major Contractor Registration.

DEMOLITION

Work customarily performed by a building wrecking contractor including the razing of buildings or parts of buildings major guttering of buildings or removal of structural elements of a building. The removal of partitions, flooring, windows, etc., incidental to a renovation or remodeling project is NOT within this category. To prequalify for Demolition, you must have a Demolition Contractor Certificate of Registration through the State of Connecticut Department of Administrative Services - Office of the State Fire Marshal.

DOORS AND WINDOWS

Work customarily performed by this industry, including installation of doors and windows made of wood, metal or other materials, both interior and exterior. This category does NOT include glass and glazing by itself.

DRYWALL AND ACOUSTICAL

Installation, renovation, repair and maintenance of drywall and/or acoustical systems composed of metal or wood studs, drywall, taping including such incidental or related work as is customarily performed by those in the drywall/acoustical trade.

GENERAL BUILDING CONSTRUCTION (GROUP C)

The undertaking of general contracts for the construction of buildings i.e. new construction, renovation, rehabilitation, alteration, addition, etc. The contract must include a variety of construction practices and supervision of a minimum of three sub-trades. Includes buildings that are truly custom, requiring extensive detailing, or that have large amounts of integrated scientific or complex mechanical/electrical equipment in order for them to function. Examples include hospitals, chemistry buildings, special collections buildings, historic preservation to a landmark structure, and/or any other structure that is truly one of a kind within the State's inventory. Note: If you are prequalified for General Building Construction under Group C, you are automatically prequalified for Group A and Group B. Also if you are prequalified for General Building Group C you will automatically be prequalified for General Trades. Note: For the purposes of DAS Construction Contractor Prequalification, contractors in this classification are not required to be registered as a major contractor with the Department of Consumer Protection. However, there may be specific projects within this classification that require a major contractor registration from the Department of Consumer Protection. Projects that are threshold buildings may require a Major Contractor Registration.

This certificate prequalifies the named company to bid. It is not a statement of the Contractor's capacity to perform a specific project. That responsibility lies with the awarding authority.

Company Licenses/Registrations: It is the Contractor's responsibility to update their license information by editing their electronic application. Licenses are confirmed by the Department of Administrative Services (DAS) at the time of initial application and at each renewal.

For information regarding the DAS Contractor Prequalification Program visit <http://portal.ct.gov/dasprcqual> or call (860) 713-5280.

GENERAL TRADES

The undertaking of general contracts for the construction and/or supervision of several sub-trades but not the construction of buildings as described in General Building Construction. The contract must include a variety of construction practices and supervision of a minimum of three sub-trades. The work of this category is intended for the interior finishes of a building.

PLUMBING

Installation, repair and maintenance of pipes, fixtures and other apparatus in buildings for bringing in and distributing the water supply and removing liquid and water-borne waste, including such incidentals or related work as is customarily performed by those in the plumbing trade. To prequalify for Plumbing you must have a Plumbing Contractor License through the State of Connecticut Department of Consumer Protection.

ROOFING

The installation of various types of roofing materials including shingles, slate, rubber, PVC and related flashing and drainage systems.

SEWER AND WATER LINES

The construction, rehabilitation and/or reconstruction of waterlines, sewer lines and ancillary works, including well drilling.

SITEWORK

Work customarily performed by this industry, including earthwork activities (excluding tunneling and mining, special foundations and load bearing elements); utility systems including installation of drainage systems; exterior improvements (excluding plantings) including horizontal paving work not requiring mortar; site preparation and site remediation.

WATER TREATMENT PLANTS

The construction, rehabilitation and/or reconstruction of sewage treatment plants, water treatment plants and ancillary works. To prequalify for Water Treatment Plants you must have a Major Contractor Registration through the State of Connecticut Department of Consumer Protection.
