**Re: City Tree – 277 West St
Tree Assessment**

Based on an on-site inspection of the property identified as 277 West St, there is a tree located long Jacob St that is in poor condition. The tree is an ash tree, approximately 12 inches in diameter.

Although the tree is less than 20 ft tall, the canopy is dead and the tree poses a potential hazard. In my profession opinion the tree shall be removed.

Due to the available width of the City's pole border (grass area), located within the City's Jacob Street right of way, I recommend planting a tree to replace the tree that is subject to this report.
